Anand International College of Engineering is approved by AICTE and affiliated to RTU (Kota). It was established at India's Pink City-Jaipur in the year 2010. We offer four years of full-time B.Tech degree program in four major disciplines of Engineering.

- Civil Engineering
- Computer Science and Engineering
- Electrical Engineering
- Mechanical Engineering

The Institute nurtures an intellectually inspiring Academic Environment with world-class infrastructure, state-of-the-art laboratories, and a lush green landscaped campus. Within a short period of time the institute built great partnerships with the top worldwide universities of USA, UK, Italy, Turkey, Russia and Thailand for Students' Summer Training on Scholarship.

The campus enriches students with a diverse range of competencies and gears them up to respond to the challenges of every aspect of life and compete globally. The success of our students in the wider world itself speaks for them.
